

Code feu tricolore A1 à insérer dans Arduino IDE

```
#include <Arduino.h>
#include <Wire.h>
#include <SoftwareSerial.h>

// C++ code
//
void setup()
{
  pinMode(4, OUTPUT);
  pinMode(3, OUTPUT);
  pinMode(2, OUTPUT);
}

void loop()
{
  digitalWrite(4, HIGH);
  delay(30000); // Wait for 30000 millisecond(s)
  digitalWrite(4, LOW);
  digitalWrite(3, HIGH);
  delay(5000); // Wait for 5000 millisecond(s)
  digitalWrite(3, LOW);
  digitalWrite(2, HIGH);
  delay(35000); // Wait for 35000 millisecond(s)
  digitalWrite(2, LOW);
}
```
